What's new in citizen science training: from open science to public engagement

27 October 2021, 11:00 am - 12:35 pm CET, online

EU-Citizen.Science has received funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement no. 824580.

YouCount: A 3-Minute Pitch

EU-Swafs Project that runs from February 2021-January 2024

Coordinated by Oslo Metropolitan University

11 Partners across Europe

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101005931

YouCount

Europe faces the challenge of increasing social inclusion for young people

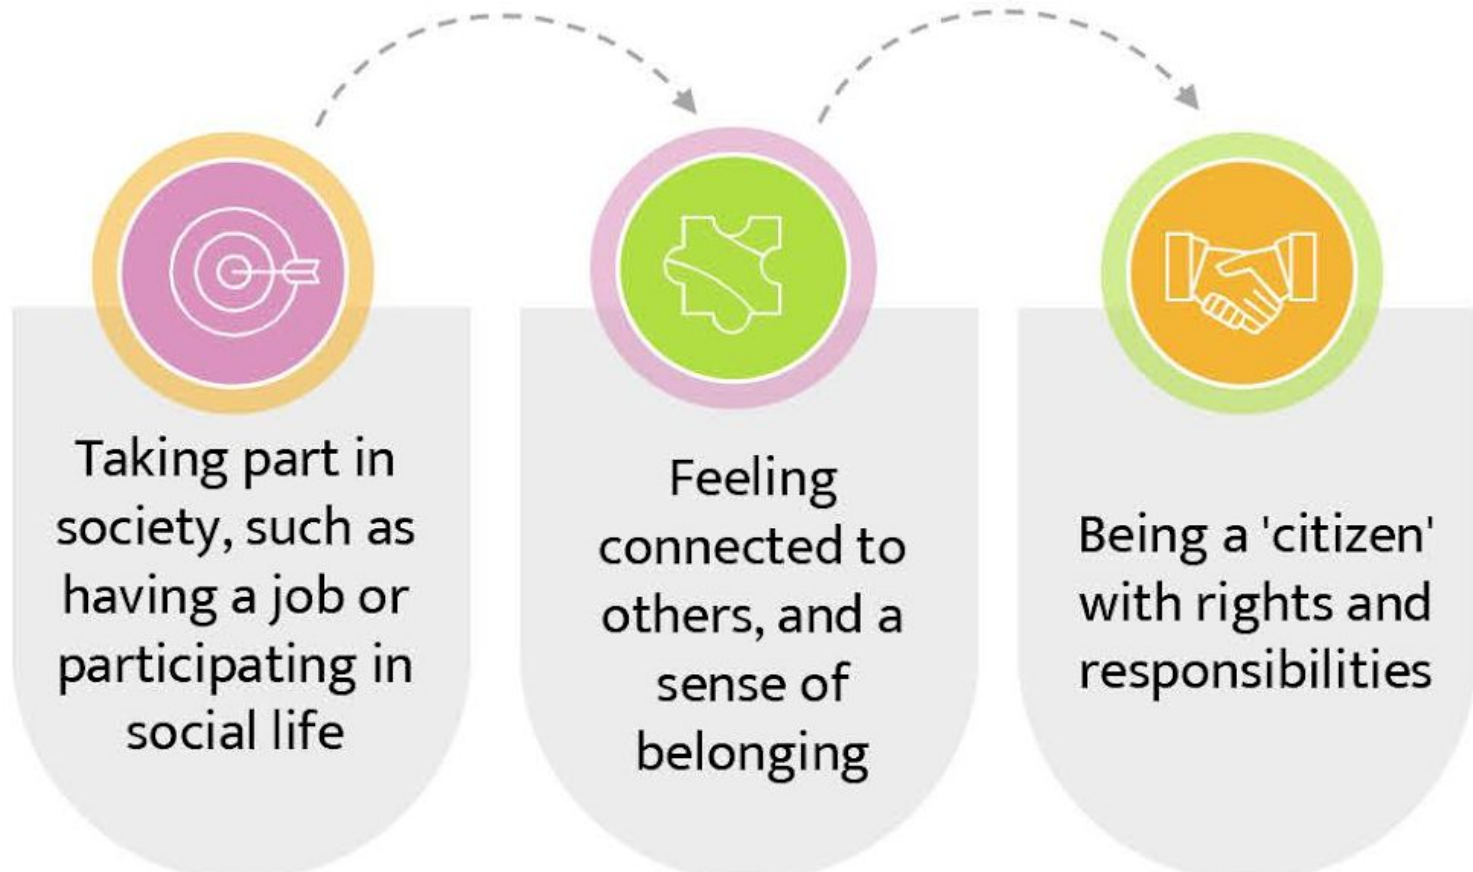

Kick-off meeting of Spanish Case at University of Deusto

What is social inclusion?

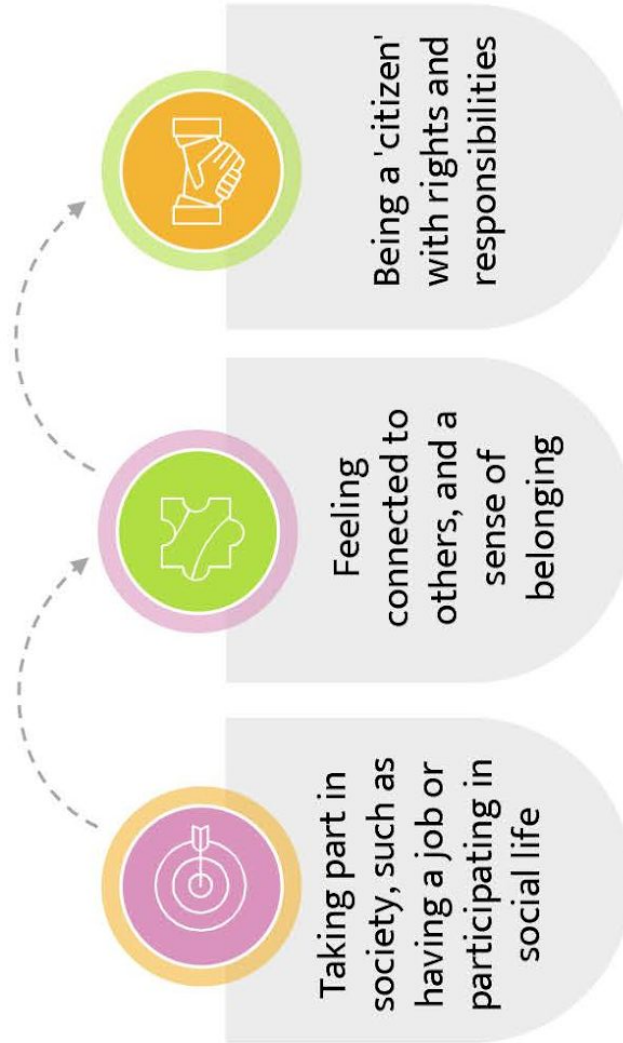

Social inclusion could be...

Is that so?

Social inclusion could be...

- Young people know more than anyone about their own lives, hopes and dreams
- What does social inclusion mean for them?
- What are their lived daily experiences of inclusion and exclusion?

Our objective

Increase youth
social inclusion
in Europe

Through
Citizen Social
Science

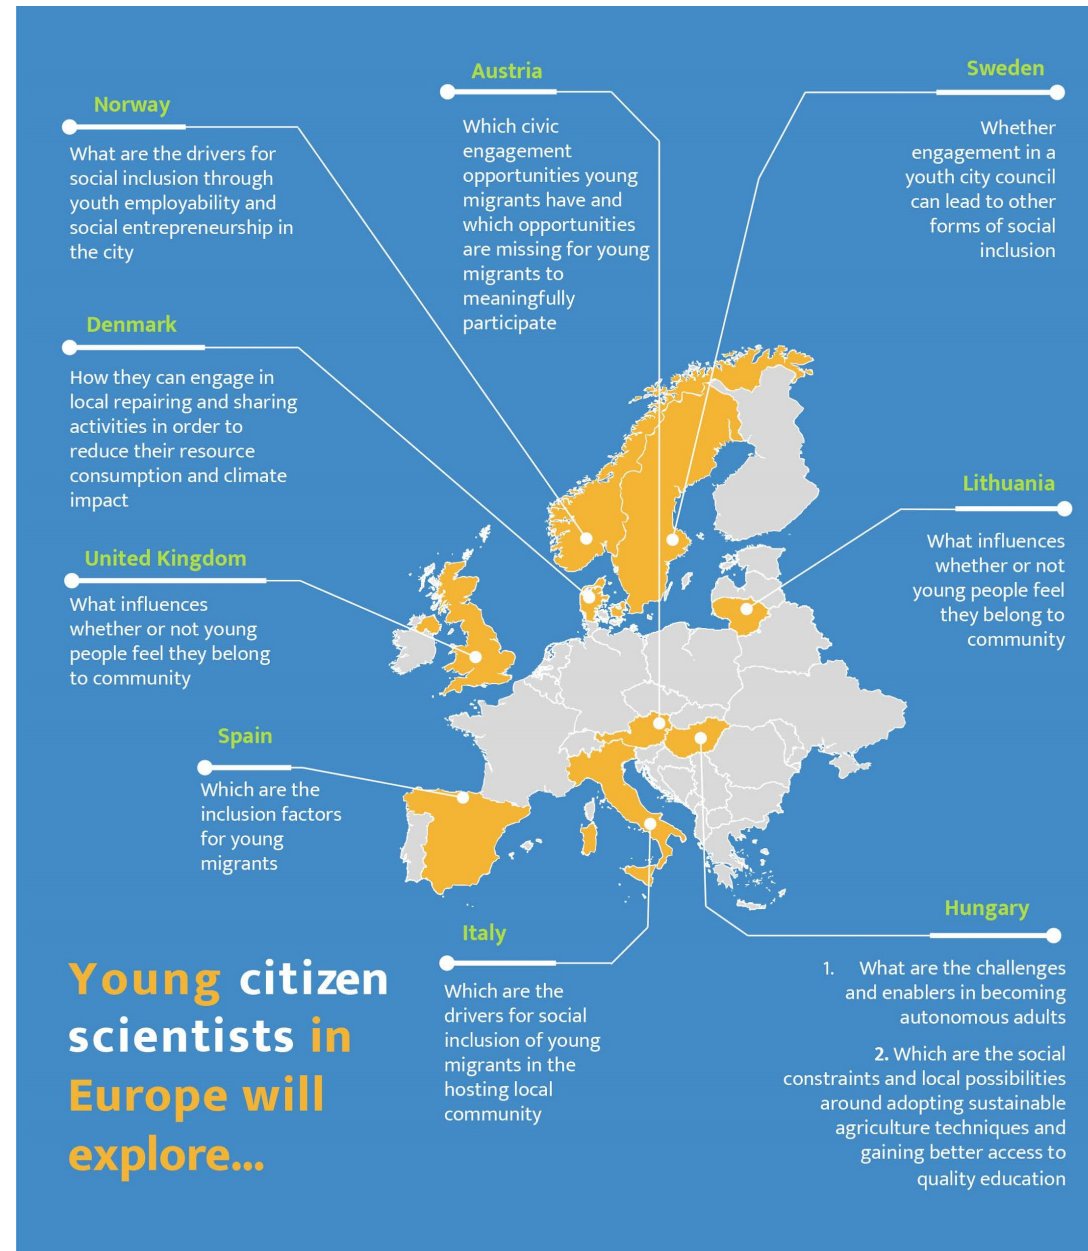

Provide
evidence of
actual
outcomes

10 Case Studies

– Our young co-researchers:

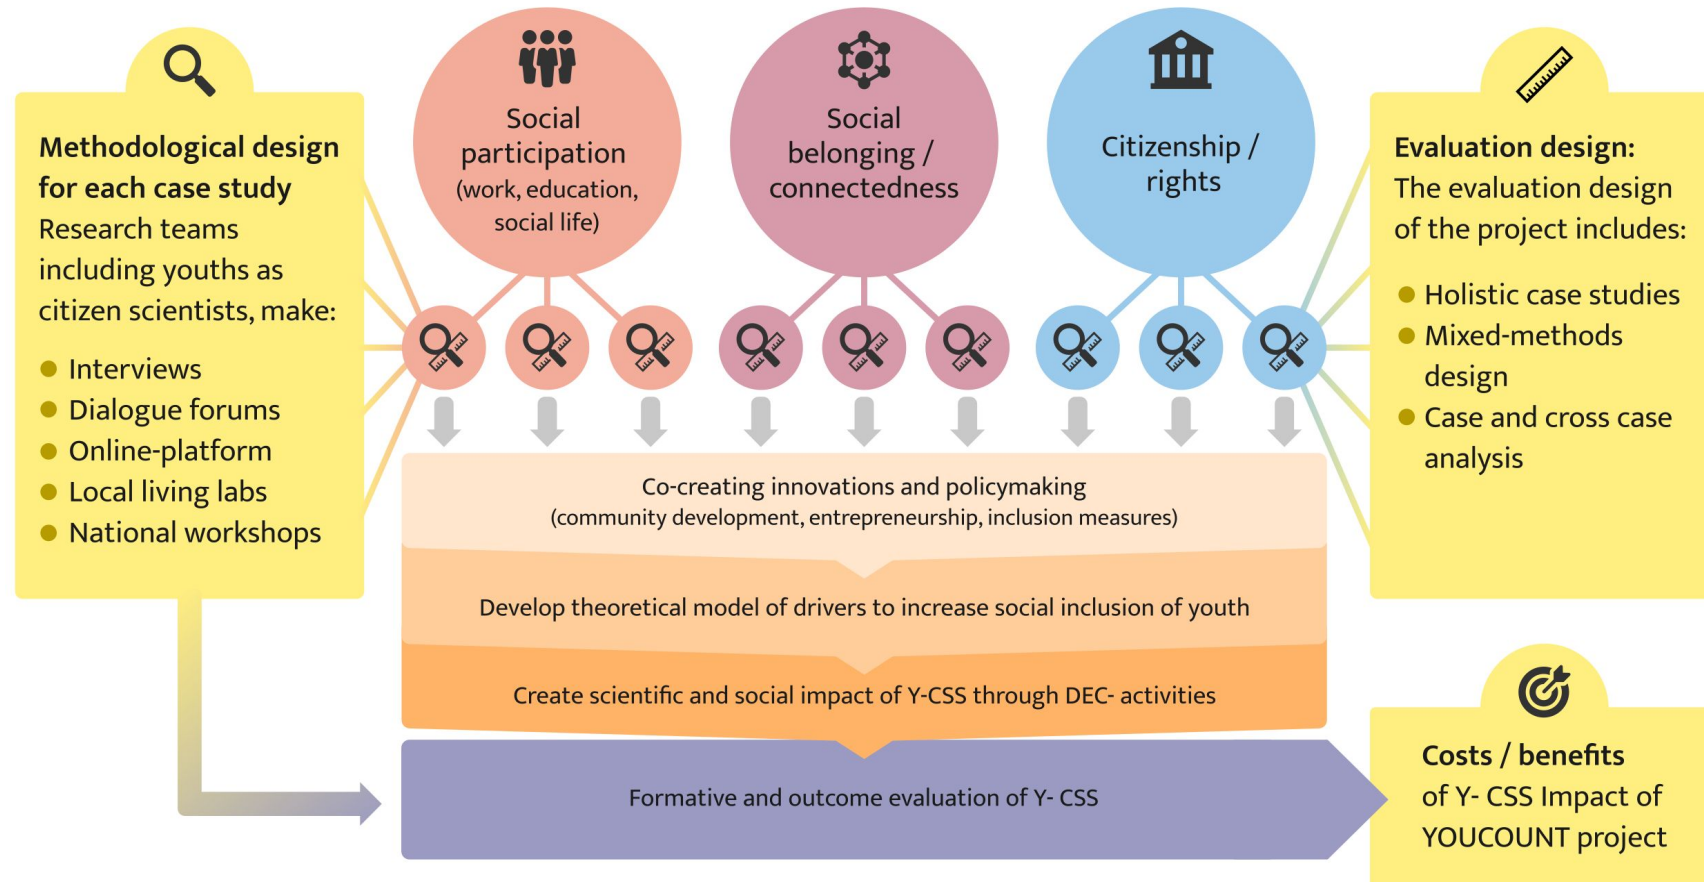

- Aged 18-30 years
- Young people in general
- Young people experiencing poverty, migration, disability, low education, unemployment...

Hands on CS activities of YOUNCOUNT

MULTIPLE CASE STUDY

Some current challenges: Read about them in our BLOG!

- How can we reward young co-researchers?
- How to involve them in all the stages of the research process when they have not been recruited?

Source: Some ideas we collected during the meeting.

Follow us! Get involved!

@youcountproject

Community of interest

Welcome to a community of interest in youth citizen social science topic under the project YouCount - Empowering Youth and Cocreating Social Innovations and Policymaking through Youth-Focused Citizen Social Science.

YouCount seeks to establish a network of academic, business, non-governmental and government organizations, working in the field of youth social inclusion, social innovations and citizen science, to be informed about the events and results of the project, and, most importantly, to explore opportunities for mutual learning, synergies and/or active collaboration.

Institute for Global Prosperity, UCL
The Institute for Global Prosperity (IGP) is a research and teaching institute, at University College London. The IGP was founded to rethink prosperity for the 21st Century, particularly to push beyond GDP growth as a measure of prosperity by working towards locally-specific, broader understandings of what makes a good life. The IGP works in partnership with communities, businesses and local governments around the world, to develop local measures of prosperity which can

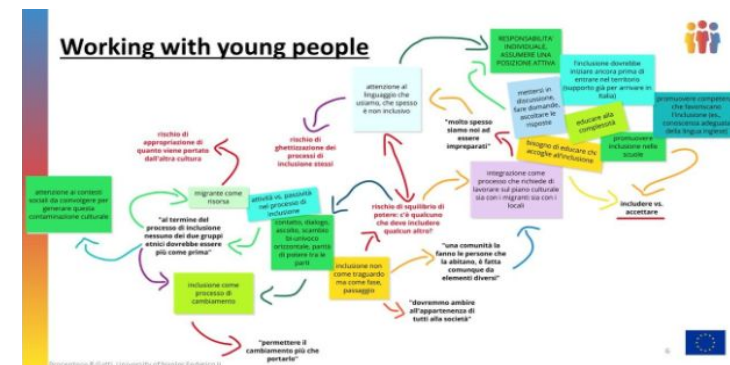

Citizen Science as an Innovative Form of Citizen Participation for Welfare Society
This project aims to explore the potential of citizen science as an innovative form of engaging citizens in solving social problems of local communities and to develop recommendations for governmental institutions and other stakeholder groups. Objectives of the project:
(1) To actualize the concept of citizen science by analysing scientific literature and documents, highlighting the potential of

Lithuanian Citizen Science Association
The Citizens' Science Association has been operating in Lithuania since April 2020. Main activities of association:
(1) The association seeks to bring together researchers and practitioners to study and engage in citizen science; (2) The association acts as a communication and coordination center for the growing citizen science community; (3) The association organizes science popularization events, presents research and citizen science projects. (4) The association works closely
